AN EMPTY CORNER IS ALL IT NEEDS !

The Iguana Corner has to be placed in the corner. An empty corner, for example above the bathtub, is all it needs. Iguana is a visually attractive design radiator, with a compact and refined appearance. A timeless sculpture with a symbolic design: the top view of the radiator resembles a child's drawing of a radiating sun. No collectors, no technical stunts. Thanks to simple aesthetics and natural rhythm, the symbolic value of Iguana is unique.
